Emergency Procedures for Lovelace and McNatt Families Practice Facility
1307 South Bonnie Brae Street, Denton, TX 76207

Shelter
You may need to take shelter for severe weather (most common) or a hazardous materials release.

During an incident requiring individuals to take shelter, all building occupants should immediately move to the designated Tornado Shelter Areas in the building. If unable to safely move to the designated shelter area, seek shelter in a windowless interior room or hallway on the lowest floor of the building.

All building occupants should take shelter in the First Floor Restrooms or—if time allows—move to shelters within the Athletic Center Building.

Evacuation
If you need to evacuate the building—for a fire, bomb threat, gas leak, or other event—all building occupants should immediately move to the nearest EXIT. Once outside, proceed to the designated Evacuation Assembly Area. If unable to safely move to the designated assembly area, contact one or more members of your department or unit to let them know where you are.

All building occupants should immediately evacuate the building and proceed to Lot 83, northwest of the practice facility.

For more information on what to do in a specific emergency situation, refer to the UNT Emergency Guidelines on www.emergency.unt.edu or the Mean Green Ready app. Call 911 in an emergency!
Take shelter in the First Floor restrooms or the Athletic Center shelter areas.
